

RESERVE THE DATE **April 3 - 5, 2018** | **Bahrain**

2018 HYDRAULIC FRACTURING WORKSHOP

Demonstrating the value of HF technologies

TECHNICAL PROGRAM

Day 1 - Rock Mechanics Training

Fracture-oriented class: in-situ stresses, geomechanical properties, fracture mechanics.

By Profs. Mark Zoback (Stanford), Maurice Dusseault (U of Waterloo), and John McLennan (U of Utah)

Day 2 AM Session - Operator Perspectives

Operators will share their views and experience.

Day 2 PM Session - Technology Highlights

Service providers and academic scholars will present technology developments.

Day 3 AM Session - Case Studies

Field studies will be shared. We are also seeking operator data to challenge the modelers.

Day 3 PM Session - Collaborations

Explore potential collaborations between operators and technologists.

ORGANIZING COMMITTEE

Chair: Gang Han - Aramco Services Company

Co-Chairs: Francis Elisabeth - Saudi Aramco, Khalaf Al Temimi - Dhahran Geoscience Society

Steering Committee:

Peter Smeallie - ARMA

Juan Chavez Flores - PDO

Anastasia Dobroskok - Shell PDO

Xu Li - Shell Kuwait

Adel Qahtani/Osman Hamid -
Saudi Aramco

Shugang Wang - Chevron

James Kessler - OXY

Claudia Teran - YPF

Raul Varela - Tecpetrol

Zhaowei Chen - CNPC

Satya Peramulla/Ivo Nuic/
Tobias Hoeink - BHGE

Gallyam Aidagulov/Safdar Khan/
Hai Liu/Jose Ramon Cabrera
Salavarría - Schlumberger

Mohamed Khalifa - Halliburton

Paul LaPointe - Golder

Munir Aldin - MetaRock Lab

Tony Addis - Rockfield

Ahmed Abou-Sayed - Advantek

Dale Walters - CGG

Sau Wai Wong - Rybkarock

Joseph P Morris - Lawrence
Livermore National Laboratory

Brice Lecampion - EPFL

Mukul Sharma - UT Austin

John McLennan - U of Utah

Mark Zobak - Stanford

Maurice Dusseault - U of Waterloo

Thomas Finkbeiner - KAUST

Ahmad Ghassemi - OU
